End Application:

6515-01-572-7224, oximeter, pulse, rad-57 masimo.

Portability:

Portable

Product Name:

Pulse co oximeter handheld color display radical 7

Special Features:

Noninvasive; display continuously provides numeric values for spo2, spmet, sphb, spoc, pulse rate, perfusion index (pi), and pleth variability index (pvi), as well as plethysmograph waveform and signal iq indicator; display type: tft color lcd; gravity activated automatic display rotation; capable of interfacing with multipatient monitor to supply spo2 and pulse rate information for display; detaches from docking station as full handheld device; battery type: nimh; battery life: approx. 4 hours; charging time: 3 hours; dimensions: 8.9 in x 3.5 in x 2.1 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
