End Application:
6515-01-572-7224, oximeter, pulse, rad-57 masimo.
Portability:
Portable
Product Name:
Pulse co oximeter handheld color display radical 7
Special Features:
Noninvasive; display continuously provides numeric values for spo2, spmet, sphb, spoc, pulse rate, perfusion index (pi), and pleth
variability index (pvi), as well as plethysmograph waveform and signal iq indicator; display type: tft color lcd; gravity activated automatic
display rotation; capable of interfacing with multipatient monitor to supply spo2 and pulse rate information for display; detaches from
docking station as full handheld device; battery type: nimh; battery life: approx. 4 hours; charging time: 3 hours; dimensions: 8.9 in x 3.4
in x 2.1 in
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T133-f
