Maximum Discharge Flow Rate:

0.002 liters per minute and 0.007 liters per minute

Pumping Element Operating Position:

Horizontal

Rotary Pump Design:

Gear and screw and shuttle block

Operation Method:

Powered

Product Name:

Infusion pump

Special Features:

Model kds100; number of syringes (1); keypad interface; backlit lcd; 7.5' stepper motor; motor gearbox 25: 1; power domestic 100~120vac 50/60hz; power ce and international 200~240vac, 50/60hz; weight 4.5 lb; dimensions (in) 9x6x5; dimensions (cm) 23x15.25x13

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52900
