Current Type:

Ac

End Application:

6515-01-557-2447 blood-fluid warmer system

Product Name:

Heater unit for buddy and buddy plus

Voltage In Volts:

100.0 and 120.0

Special Features:

One way valve to prevent backflow from patient; dual heater plates; venting membrane automatically removes air from crystalloid solutions; pressure regulating valve prevents excess pressure from reaching unit and patient; flow control valve prevents air entrainment; heater unit for buddy and buddy plus

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
