**Portability:**

Portable

**Product Name:**

Monitor vitals kit o2 sat cardiac output - corp

**Special Features:**

Handheld pulse co-oximeter; noninvasive arterial oxygen saturation and pulse rate monitor; displays values for oxygen saturation (spo2), perfusion index (pi), and pulse rate (pr); capable of total hemoglobin (sphb), oxygen content (spoc), carboxyhemoglobin (spco), methemoglobin (spmet), and pvi with added sensors; battery life: approx. 10 hours; up to 72 hours trending memory; low signal quality (siq) indicator; includes pleth variability index (pvi) software upgrade (nsn 6515-01-590-8579) and rainbow dc-3 sc-360 adult reusable spot check sensor, 360 tests, 3 ft (nsn 6515-01-590-8899); component of transport 1/2 module

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-f
