Design Designation:

Intravenous

Tip Type:

Round

Connector Type:

Luer lock hub

Diameter:

18.000 gage

Material And Location:

Plastic, polyurethane

Product Name:

Catheter intravenous safe type 18 ga 1.25 in each

Special Features:

1.25 inch straight needle; with passive safety design; push off plate onhub; needle bevel orientation indicated on push off plate; safety clip is automatically engaged when bevel exits the catheter hub; available in fep polytetrafluoroethylene; sterile

Style Designator:

Intravenous injection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
