**End Application:**

6515-01-277-1559 cervical unit, traction apparatus, halo

**Product Name:**

Pin skull halo system ceramic tipped

**Special Features:**

Ceramic tipped skull pin; used for open back ring; white tip, metal body; weight: approx. 0.1 kg; size: 3 inches (7.6 cm); proprietary ceramic-tipped skull pin eliminates the risk of dangerous scalp burns resulting from halo pin heating phenomena; plus, the same technology that protects patients from potentially dangerous current induction in the mri also results in higher-resolution brain images.

**Shelf Life:**
