Universal Medical Device Nomenclature System Code:

17882

Cubic Measure:

0.423 cubic feet

Product Name:

Defibrillator/monitor-recorder system

Special Features:

Defibrillator/monitor-recorder system; color display capable of 4 waveforms simultaneously high contrast and nvg friendly screen; adult, ped and neonatal monitoring capability; 3, 5, and 12 lead ecg; inovise 12l algorithm; impedance pneumography respirators; masimo raingow set pulse oximetry (spo2 only); non -invasive blood pressure with sure rapid bp technology; microstream co2 for intubated and non intubated patients; 3 channels of invasive blood pressures; two temp channels; zoll rectilinear biphasic defibrillator with synchronization capability; aed functions with manual override external transcutaneous pacing; waveform snapshot; vital sign trending life threatening arrhythmia (lta) monitor and code markers documentation; real cpr help; expansion pack; advanced communications; package (wi-fi, bluetooth, , usb cellular modem andethernet capable); usb port for data transfer; multiple applications printer; durable handle with integral bedrail hooks

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
