Handle Type:

Nondetachable

Specific Use:

Extraction

Design Designation:

Immobilization

Material And Location:

Plastic, polyethylene back

Product Name:

Spec pak

Special Features:

Patient packaging and extrication system combines the backboard immobilization of a short board with the suspension and support of a full body harness; utilizes an integrated polyethylene board along the back to reduce wear and create a smooth sliding surface for confined space operations; grab handles located at the head and sides allow rescuers to better handle the patient package during movement through tight spaces; intended as a limited spinal immobilization system; must be used in conjunction with proper spinal immobilization such as the use of a cervical collar where conditions and protocols dictate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-d
