Overall Length:

16.000 inches

Overall Height:

14.00 inches

Overall Width:

7.00 inches

Current Type:

Ac

Universal Medical Device Nomenclature System Code:

17423

Portability:

Portable

Product Name:

Savee ii ventilator, resuscitation device, compression driven, w/hard case

Voltage In Volts:

100.0 and -240.0

Special Features:

Portable ventilator; provides assisted ventilation for up to 10 hours; select the height of the patient and the device dials in a lung protective ardsnet protocol tidal volume based on the ideal body weight of the patient; hands-free bagging during evacuation; accepts supplemental o2, compresses oxygen not required; fail-safe mechanisms and visual/audible alarms; powered by rechargeable lithium battery or electrical outlet; includes (1) each of the following components: ventilator, hard case, noise attenuator, charger (two piece), o2 reservoir, patient breathing circuit, patient mask, head strap, 20 ml syringe, operator's manual; unit of issue each; weight 9.65 lbs; dimensions: 16.0 in h by 14.0 in wide by 7.0 in dia; power requirements: 100-240 vac, 16.8vdc, 50-60 hz; stored and transported in hard case; shelf-life: 5 years, latex free; product device code, 17423

Frequency In Hertz:

50.0 or -60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
