Design Designation:

Cooper

Material And Location:

Brass shaft

Unit Type:

Obstetrical

Tip End Style:

Blunt rounded

Point Type:

Blunt

Features Provided:

Sterile

Overall Diameter:

20.0 millimeters

Shanklength:

120.0 millimeters

Product Name:

Large-radius loop electrodes, w 2.0 cm x d 2.0 cm, 12 cm shaft, 5s

Special Features:

Tungsten wire with built-in guard; electrodes have a standard 3/32 inch connector shaft that can be used on most generators; sterile, single-use only; 5/box; dia: loop size w 2.0cm x d 2.0cm w/12cm shaft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-e
