View Online at https://aerobasegroup.com/nsn/6520-00-559-9935

Inside Depth:
Between 0.625 inches and 1.125 inches
Unit Type:
Denture flasking
Cover:
Provided
Construction:
Sectionalized
Denture For Which Designed:
Lower
Upper Section Inside Length:
3.000 inches
Upper Section Inside Width:
3.875 inches
Upper Section Height:
1.812 inches
Lower Section Bottom Type:
Closed
Ejection Feature:
Included
Product Name:
Flask denture lower ejector type
Special Features:
HANA-UT-YPE-;FOR
Material:
Copper alloy
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Filg:
T243-I
