Overall Length:

15.125 inches

Overall Height:

21.500 inches

Overall Width:

4.500 inches

Current Type:

Ac

Assembly Form:

Set-up

Voltage Rating:

115.0 volts

Power Rating:

250.0 watts

Operating Frequency:

60.0 hertz

Weight:

37.0 pounds

Maximum Temperature Rating:

350.0 degrees fahrenheit

Err Default:

Err default

Desiccant Capacity Type:

Bulk

Err Default:

Err default

Exterior Container Weight:

0.35 pounds

Exterior Container Cubic Measure:

1.438 cubic feet

Exterior Container Quantity:

1

Special Features:

Automatic; double chamber; reactivated desiccant type; 30 minute activation cycle; provides dried, filtered air at a rate of 5 cfm to a maximum of 10 operatories; three units may be mounted in parallel to service at a maximum of 30 operatories; each chamber holds approx 140 gram of silica gel

Unit Of Issue Cube:

1.439 cubic feet

Unit Of Issue Weight:

35.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T243-b
