Slot Depth:

0.070 inches

Slot Width:

Between 0.035 inches and 0.040 inches

Overall Length:

3.750 inches

Material And Location:

Corrosion-resisting metals

Design Form:

Single-ended

Product Name:

Bender thread forming den cres 3.75"lg f/.031" diameter pin 3s

Special Features:

For 0.031 in. O.79 mm diameter pin; for contouring retention pin; for contouring retention pin affixed in dentin of teeth; for use in pin retention of restorations in thread-forming screw technique; used w/6520-00-935-9869, 6520-00-935-9867 and 6520-00-420-0508; unit q type 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-h
