Unit Package Quantity:

2

Physical Form:

Any acceptable

Unit Package Type:

Package

Furnished Items And Quantity:

Base, tube 1; accelerator tube 1

Usage Design:

Protect surface of surgical wounds

Hardness Designation:

Soft

Setting Time:

Between 15 minutes and 20 minutes

Curing Process Type:

Self

Product Name:

Paste periodontal protective c/o bas accelerator & retarder

Exterior Container Weight:

15.00 pounds

Exterior Container Cubic Measure:

1.00 cubic feet

Exterior Container Quantity:

12

Intermediate Package Quantity:

1

Unit Of Issue Cube:

0.500 cubic feet

Unit Of Issue Weight:

8.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T243-d
