Overall Length:

600.000 inches

Overall Width:

1.250 inches

Overall Thickness:

0.063 inches

Physical Form:

Any acceptable

Design Designation:

For use as a liner in casting flasks or rings

Maximum Temperature Rating:

2300.0 degrees fahrenheit

Product Name:

Liner flask den casting mach water absorbing 50ftx1.25inx0.063in

Special Features:

Water absorbing; asbestos substitute; asbestos free; one 50 ft. Roll

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T243-a
