Width:

32.000 inches

Frequency Rating:

60.0 hertz

Voltage Rating:

115.0 volts

Power Source:

Electric motor

Product Name:

Grinding & polishing mach den lab bench mounted 115v 50/60 hz ac

Depth:

24.000 inches

Special Features:

Suction motor: 3/4 hp, 3450 rpm; polishing motor: no. 26 red wing, two speed lathe; suction capacity: 600 cfm; filter area: 62 sq. Ft., 24 shakeable cloth filter bags; external foot shaker, internal cabinet dust tray; work surface 40 in. To table top; entraps particles as small as 0.5 microns and larger particles; for dry grinding operations, such as, grooving plaster models, dry polishing and dry model trimming

Height:

56.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T243-n
