Hole Diameter:

0.078 inches

Diameter:

0.078 inches

Overall Thickness:

0.125 inches

Usage Design:

Dental

Mounting Method:

Arbor hole

Mounting Opening Shape Style:

Round

Abrasive Material:

Silicon carbide

Wheel Diameter:

0.625 inches

Product Name:

Wheel abrasive silicon carbide dental comp of 6545-01-141-9483 100s

Wheel Style:

Special "i"

Special Features:

Metallic hub; heatless; non-clogging; square edged; component of nsn 6545-01-141-9483; unit q type 100; binding material: non-vitrifying

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A06900
