Product Name:

Syringe kit den impression & irrigating barrel&plunger disp12ml

Special Features:

Dental multi-purpose syringe package consisting of 50 disposable 12 ml syringes, 50 plastic sheets and 2 finger grip extenders and suitable for use with elastomeric impression materials and irrigating solutions. The syringe shall be a barrel and plunger type. The plunger shall be fitted with a seal to prevent contents from bypass. The tip shall be curved to facilitate access, approximately 1.5 in. In length and its bore gradually reduced in diameter from approximately 0.160 in. To approximately 0.029 in. Inside diameter. The tip shall be constructed of a material easily cut so that both length and orifice diameter are thereby adjustable. The syringe shall be fitable with a slip on type finger grip extender for use in expressing viscous materials. The syringe itself shall be autoclavable. Plastic sheets shall be furnished to aid in loading the syringe. Unit of issue shall be one package with instructions for use
