Overall Thickness:

0.125 inches

Usage Design:

Dental

Abrasive Material:

Silicon carbide

Screen Grit Size Designator:

80

Wheel Diameter:

0.750 inches

Product Name:

Wheel abrasive den silicon carbide screen grit sz80 0.75" dia50s

Special Features:

Heatless wheel-mizzly; metal center-unmounted; wears true until worn down to metal hub; sharp edges; cooled at room temp; nonceramic; used for grinding metal in rough stage prior to smoothing and polishing; requires less time than using finger grained stone or wheel; unit q type 50

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A06900
