# Size Designator:

Material And Location:

Steel, corrosion resisting barrel

# Design Type:

Double end

### **Product Name:**

Carrier amalgam cres barrel double end lever type sz2

# **Exterior Container Weight:**

26.00 pounds

# **Exterior Container Cubic Measure:**

1.50 cubic feet

**Exterior Container Quantity:** 

288

#### **Special Features:**

Mini and regular barrel; lever type; for carrying and delivering a plastic mass of dental alagam into dental cavity preparation

## Unit Of Issue Cube:

0.005 cubic feet

### Unit Of Issue Weight:

0.09 pounds

#### Shelf Life:

N/a

#### Unit Of Measure:

---

#### Demilitarization:

No

#### Fiig:

T243-g
