Physical Form:

Powder

Abrasive Material:

Aluminum oxide

Flavor Additive:

Not included

Weight:

40.000 pounds

Physical Form Color:

Any acceptable

Err Default:

Err default

Product Name:

Abrasive dental powder aluminum oxide 99.5% abrasive additive

Special Features:

Economy container; optically graded, acid washed pure aluminum oxide; coarse, fast cutting power for rapid investment removal, surfacing and cleaning metal frameworks prior to porcelain application

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T243-d
