Design Designation:

Qulix

Material And Location:

Steel, corrosion resisting probe

Special Features:

Sthin; michigan 0 w/william markings; 1-2-3-5-7-8-9-10; can be autoclaved or dry-heat sterilized; withstand temperatures up to 350 degrees f/177 degrees c; color coding will not wear down, chip, flake, fade, or catch in periodontal pockets

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-a
