Overall Length:

0.016 inches

Overall Width:

0.016 inches

Usage Design:

Orthodontist procedures

Special Features:

Preformed reverse vector mandibular arch wire, orthonol superelastic nickel-titanium; 1 etched midline mark; pkg of 10; controls incisor torque; minimizes molar rotation; efficient in closing anterior open bites/overbite; square

Surface Treatment:

Nickel

Surface Treatment:

Nickel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T243-d
