**Overall Length:**

0.016 inches

**Overall Width:**

0.016 inches

**Usage Design:**

Orthodontist procedures

**Special Features:**

Preformed reverse vector mandibular arch wire, orthonol superelastic nickel-titanium; 1 etched midline mark; pkg of 10; controls incisor torque; minimizes molar rotation; efficient in closing anterior open bites/overbite; square

**Surface Treatment:**

Nickel

**Surface Treatment:**

Nickel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T243-d
