Overall Height:

60.0 millimeters

Overall Width:

150.0 millimeters

Special Features:

Length is 140mm, electronics with automatic frequency tuning and power control, high efficiency and low pain through controlled straight line oscillation pattern, ultrasonic cavitation and acoustic streaming, has lightweight and ergonomic handpiece, three way electronic keypad for on/off/power setting. Led bar graph showing ten power levels. Easy quick connect couplings

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-c
