Specific Use:

Polymerize all dental material

Product Name:

Bluephase g2

Special Features:

Provides 1200 mw/cm² irradiance with its 10 mm light guide and possess the ability to produce light in the 380-515 nanometer range, has a quiet internal cooling fan which allows lengthy period of operation without shutdown, cordless function with lithium polymer batteries provides 60 minutes of function

Shape:

Angular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T243-e
