Current Type:

Ac

Cubic Measure:

10.6 cubic feet

Accessory Components And Quantity:

Transport iii dental operating module-1; transport case-1; accessory case-1

Product Name:

Dental operatory system, field portable

Voltage In Volts:

115.0 or 220.0

Special Features:

Dental operatory system, field portable; self-contained; includes the transport iii dental operating module, the mil-spec transport case, and the accessory case; this is the usmc configuration that does not include the optional handpieces; dimensions (unit closed), 23x10.5x17.75 inches; dimensions, (unit set up), 17.8x18.6x34.3 inches; weight, (unit), 59 pounds; weight, (unit and shipping case), 112 pounds; power rating 800w; constant air flow pressure, 40 psi, 0.4 scfm; integrated compressor; accepts all e-type hand pieces; 3 way air/water syringe; ae-7pm footswitch

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-c
