Physical Form:

Liquid

Unit Package Yield:

20.000 gallons

Material Processing Method:

Automatic

Unit Package Content Form:

Single unit for mixing

Special Features:

Kodak; universal speed

Supplementary Features:

Note: b, f; for use as developer-replenisher inroller transport-type automatic processing machine; usable at all speeds 90 sec or more; for use with starter 6525-00-689-3670; unit pkg yield 75.2 liters

Reference Number Differentiating Characteristics:

As differentiated by unit package yield

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24700
