Width:

24.0 centimeters

Length:

30.0 centimeters

Base Material:

Plastic, polyester

Base Color:

Blue

Emulsion Sensitivity:

Green

Film Exposure Quantity:

1

Contrast Rating:

Very high

Granule Size:

Any acceptable

Sensitized Coating Location:

One side

Corner Cut Type:

Round

Emulsion Speed Range:

Varies depending on intensify screen used

Product Name:

Film radiographic kodak om-1 24 x 30cm w/o interleaving 100s

Special Features:

W/o interleaving papers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T140-b
