Physical Form:

Liquid

Unit Package Yield:

10.000 gallons

Material Processing Method:

Automatic

Processing Speed:

Multi-speed

Unit Package Content Form:

Single unit for mixing

Special Features:

Developer-replenisher; high density; package consists of 2 single units, each of which yields 5 gal when mixed w/water; for use w/cadi chemical mixing system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24700
