Product Name:

Heating elem hosp equip 78 standard body styl use on x-ray film proc

Unit Of Issue Cube:

0.00 cubic feet

General Description:

78 standard element body style; 4.015 in. W; 4.75 lg; noninfrared; ; nickel alloy and rubber synthetic resistance wire material; 115 ac; 60 hertz; single single phase; 320 watts; watt density not rated; 3.75 in. Effective heating lg.; 1 element; 12 wire lead w/terminal lug element connection; 2 terminals; terminal 3.75 in. Lg; 4 flange type mtg method; 0.125 hole dia; 4.687 in. Mtg facility lg; 4.375 in. C/c distance between mtg facilities parallel to lg; 2.5 in. C/c distance between mtg facilities parallel to width; 4.015 in. Mtg facility width; 4 holes/slots; 0.062 in. Flange thickness

Fsc Application Data:

Processor, x-ray film

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
