**Product Name:**

Ultrasonic unit blood flow detection 120/230v 50/60hz doppler

**Special Features:**

D shall be electrically shielded for patient/operator safety and prevention of electrical interference. (9) the electrical characteristics shall be consistent with the requirements of the latest edition of specification dpssc-depmeds-at (dm); shall be provisioned in accordance with the requirements contained in the latest edition of specification dpssc-depmeds-at (dm); shall be capable of assessing patency of venal grafts intraoperatively by varying an audible pitch frequency as blood flow velocity changes; shall be provided with an 11.5 cm pencil probe; probe shall operate at a constant pre-tuned frequency of approx. 8mhz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T107-c
