Universal Medical Device Nomenclature System Code:

10429

Installation Design:

Portable

Err Default:

Err default

Product Name:

Ultrasonic unit blood flow detection 115/120v 50/60 hz doppler

Voltage In Volts:

115.0 or 120.0

Special Features:

115/120 volt; 50/60 hz, ac; multipurpose; suitable f/use as a blood flow detector in a variety of surgical/clinical applications; f/monitoring doppler sounds of blood flow on the principle blood vessels of the arms/legs by varying an audible pitch frequency as blood flow welocity changes; operable from either internal batteries or line power w/low battery power alarm; portable; self contained; w/small flat probe f/taping to skin over desired blood vessel; operates at constant pre-tuned frequency of approx. 5.3mhz; probe cable, approx. 8 ft/electrically shielded f/safety and prevention of electrical interference; gas sterilized

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-c
