Product Name:

Ultrasound unit micrus portable convex linear imaging system

Exterior Container Weight:

33.00 pounds

Special Features:

Micrus portable convex linear imaging system; c/o ssd-500 console with 7 in. B/w monitor, 64 gray shade levels, 512 x 512 image memory, character and graphic display, 256-shade processing, comprehensive measurement and analysis software packaging, control by built in trackball, fetal parameters, bpd, crl, ac, hc, fl, estimated gestational age, estimated fetal weight, distance (by caliper) - 2 channels, area and circumference (by ellipse) - 2 channels, velocity measurement - 2 channels / heart rate - 2 channels

Unit Of Issue Cube:

3.400 cubic feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
