Overall Height:
710.0 millimeters
Current Type:
Ac
Voltage Rating:
Between 100.0 volts and 230.0 volts
Operation Method:
Automatic
Special Features:
Modular design; programmable scanner arm w/large crosshair laser and positioning aids; self-calibrating; fan beam technology;
switched-pulse, dual-energy x-ray sytstem; 96 x 51 cm scan region; scanning sites: pa lumbar spine, proximal femur (hip), forearm; scan
time/exposure: lumbar spine - 15s/5mr, hip - 15s/5mr and forearm 30s/10mr
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T150-d
