Product Name:

Imager laser konica dry laser imager drypro model 722 semiconduc

Special Features:

Akonica dry laser imager drypro model 722 semiconductor laser uses film sizes: 14x 17 in., 14 x 14 in., 11 x 14 in.; type sd-p (tinted), sd-pc (clear), 2 channel, daylight load, 125 sheets/channel; maximum 8850 x10650 imaging matrix; variable 40-80 micron pixel resolution; 8 bit/12 bits input density; 12 bit gray scale; 150 film sheets per hr; 220 v, 50/60 hz, 11a; dimensions: 3 (w)x28(d)x53(h) in.; 924 lbs; ul, fda, c-ul, c-tick, demko certification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
