Overall Length:

14.000 inches

Overall Width:

17.000 inches

End Application:

FORU-SE-ONT-HEDI

Product Name:

Plate processor image 14x17in regius 150 e.I. 6525014923671

Special Features:

Regius 150 image plate is removed from the cassette, processed and returned without distortion or contact, thus eliminating scratches and extending plate life; made of lightweight carbon fiber supported by a reinforced frame to maximize absorption of useful radiation while minimizing patient exposure; well matched to existing x-ray equipment, current routines do not have to be customized when switching from conventional to digital imaging

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
