**Overall Length:**

15.990 inches

**Overall Height:**

53.430 inches

**Overall Width:**

23.400 inches

**Current Type:**

Ac

**Frequency Rating:**

Between 50.0 hertz and 60.0 hertz

**Film Accommodation Type:**

Cut sheet

**Film Size Accommodated:**

11 inch x 14 inch or 14 inch x 17"

**Product Name:**

Processing machine radiographic film automatic ac 120 and 240v

**Voltage In Volts:**

120.0 and 240.0

**Special Features:**

Drystar 3000 thermal printer, large format dry imager for grayscale imaging.

**Supplementary Features:**

Throughput 14" x 17" 50 sheets/per hour 1st film approx. 120 seconds; 11" x 14" 70 sheets/per hour 1st film approx. 90 seconds. Capacity of supply tray 100 sheets; capacity of pick-up tray 50 sheets.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T150-c
