**Overall Length:**

32.000 inches

**Overall Height:**

52.000 inches

**Overall Width:**

26.0003 inches

**Voltage In Volts And Current Type:**

220.0 ac

**Product Name:**

Laser imager dryview 8700 32x26x52inches

**Special Features:**

Totally dry laser imaging, eliminates wet chemistry; automatic image quality system; expandable to eight inputs; fiber optic interface cables; dual printer capability; 120 films per cartridge; processes 120 films/hour

**Supplementary Features:**

Remote via built-in modem, allows tech center to perform advanced diagnostic procedures over the phone

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
