Overall Length:

32.000 inches

Overall Height:

52.000 inches

Overall Width:

26.0003 inches

Voltage In Volts And Current Type:

220.0 ac

Product Name:

Laser imager dryview 8700 32x26x52inches

Special Features:

Totally dry laser imaging, eliminates wet chemistry; automatic image quality system; expandable to eight inputs; fiber optic interface cables; dual printer capability; 120 films per cartridge; processes 120 films/hour

Supplementary Features:

Remote via built-in modem, allows tech center to perform advanced diagnostic procedures over the phone

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
