Design Type:

Any acceptable

Tube Mounting Type:

Extension bracket

Product Name:

Dental x-ray apparatus model gx-1000

Voltage In Volts:

120.0 and 130.0

Phase:

Single

Special Features:

Adjustable kvp; selectable ma; three tubehead capability from single control; heavy duty suspension arm; exposure time selections: 3 impulses to 3 seconds; 50 to 100 kvp; 10 or 15 ma; line voltage: 110-130 vac, 60hz; duty cycle: 4 exposure seconds per minute

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T140-c
