## Mounting Type: Stationary **Universal Medical Device Nomenclature System Code:** 18429 **Operation Method:** Automatic **Tube Quantity:** 1 Tube Type: Double focus, rotating anode radiographic Table Type: Nontilting **Rectification Type:** Full-wave **Tube Cooling Method:** Air **Tube Mounting Type:** Tube stand Radiographic Timer Type: Exposure **Transformer Rectification Method:** Self-rectifying **Product Name:** Bucky diagnostic x-ray unit Phase: Three **Special Features:** 190 to 240vac; stationary free standing unit; solid state circuitry; rectified high voltage transformer and cables; free staning control cabinet with visual indicator; for field military medical facilities; includes: bucky unit, optimus 50 generator, patient table, wall mount operator panel, tube assembly panel, arm rest, bucky ve/vt, lateral cassette holder, bucky diagnostic ve/vt, high speed rotor control, automatic collimation **Frequency In Hertz:** 50.0 or 60.0 Shelf Life: N/a Unit Of Measure:

---

Demilitarization:

No

Fiig:

Т140-с
