Design Type:

Mobile

Tube Type:

Siemens p135/30 r with focal spot value 0.8 (acc. To iec 336/1982)

Product Name:

Radiographic unit high performance battery operated

Special Features:

Self-calibrating high frequency, high-output generator with multipulse voltage x-ray generator; 20,000 mas integrated battery capacity (200-250 exposures can be taken before recharging the battery); battery powered motor drive with 2 speeds and easy operation;

41x22x61.8in; 628lbs; exposure time: shortest 1.2ms, mas 5.0s

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T140-c
