Overall Height:

1.750 inches

Overall Width:

17.000 inches

Product Name:

Medweb raq5 5069r server standard specification dicom webserver pacs and security

Special Features:

Enables electronic transmission of radiological images, associated patient info and exams over a variety of telecommunications media; provides all dod organizations and individuals, incl. Tactically deployed users, with secure and interoperable medical image transmission and storage capabilities; voltage input range: 90 to 264 vac; input freq. Range: 47 to 63 hz; input current: 4 a (rms) at 115 vac, 2 a rms) at 230 vac;   depth: 15 in; operating environment: 0 to 60 degrees c

Functional Description:

Provides secure and interoperable medical image transmission and storage capabilities

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
