Wattage Rating:

75.0 watts

Product Name:

Scanning system ultrasonic portable device code 18143

Special Features:

High-resolution ultrasound system; 8.4 in diagonal digital display; 2d grayscale with sonomb multi beam technology, tissue harmonic imaging, sono hd imaging technology and autogain, sonoadapt tissue optimization technology, velocity color flow, color power doppler, ob specific calculations package, m-mode, pc direct connectivity capability through usb memory stick; 1.5 gb on-board flash memory stores up to 1800 images; software upgrades and transducer database updates are accomplished through one of the two usb ports; includes: battery, nanomaxx dock, ultrasound gel, and user guide on a cd; applications include: anesthesia, critical care, focused echo, ob/gyn, cardiovascular disease management, emergency medicine, picc, internal medicine, musculoskeletal, vascular, surgery; 100-240 vac, 75 watts, 1.0-2.0 amps, 50/60 hz, single phase; lithium battery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
