Current Rating In Amps:

4.0

Design Type:

Portable

Electric Power Rating:

3000.0 watts

Product Name:

X-ray apparatus radiographic medical

Voltage In Volts:

115.0

Phase:

Single

Special Features:

X-ray apparatus, radiographic, medical; system includes: portable unit, generator, exposure switch, x-ray tube, digital detector, computer; dimensions as follows: (l x w x h) in inches - unit (26 x 28.7 x 53); image size: automatic sizing up to 14 x 17 in

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T140-c
