Wattage Rating In Watts:
480.0
Overall Height:
74.500 inches
Overall Width:
35.500 inches
Current Type:
Ac
Inside Width:
20.000 inches
Inside Length:
38.000 inches
Inside Height:
20.000 inches
Voltage Rating:
120.0 volts
Heating Method:
Electrical and steam from remote steam source
Shelf Quantity:
3
Heat Transfer Method:
Pressure steam
Closure Method:
Pressure lock door
Product Name:
Sterilizer surgical instrument and dressing steam pressure 115v
Special Features:
50/60 hz; automatic control; microcomputer programmed; for processing heat-and-moisture stable items at 270 to 280 degrees f (132
degrees to 138 degrees c) in the prevacuum cycle mode, and liquids in flasks with vented closures at 212 degrees to 250 degrees f (100
degrees to 121 degrees c) in the gravity cycle mode; c/o sterilizer body, pressure lock door assembly, chamber and jacket assembly,
controls, and auxillary components and accessories; indicator-recorder-controller provides thermostatic temperature control; timer indicates
proper operating temperature in chamber drain line; synchronous motor driven chart records temperature, using pressure sensitive cartridge
pen; three removable shelves; supplied with two complete sets of instructions for installation, operation, maintenance and repair; may be
manually operated in gravity mode in the event of power failure; used in field assemblies only
Material:
Steel, carbon and steel, corrosion resisting
Material:
