Mounting Type:

Cabinet

Overall Length:

50.500 inches

Wattage Rating In Watts:

480.0

Overall Height:

74.500 inches

Overall Width:

35.500 inches

Current Type:

Ac

Inside Width:

20.000 inches

Inside Length:

38.000 inches

Inside Height:

20.000 inches

Voltage Rating:

120.0 volts

Heating Method:

Electrical and steam from remote steam source

Shelf Quantity:

3

Heat Transfer Method:

Pressure steam

Closure Method:

Pressure lock door

Product Name:

Sterilizer surgical instrument and dressing steam pressure 115v

Special Features:

50/60 hz; automatic control; microcomputer programmed; for processing heat-and-moisture stable items at 270 to 280 degrees f (132 degrees to 138 degrees c) in the prevacuum cycle mode, and liquids in flasks with vented closures at 212 degrees to 250 degrees f (100 degrees to 121 degrees c) in the gravity cycle mode; c/o sterilizer body, pressure lock door assembly, chamber and jacket assembly, controls, and auxillary components and accessories; indicator-recorder-controller provides thermostatic temperature control; timer indicates proper operating temperature in chamber drain line; synchronous motor driven chart records temperature, using pressure sensitive cartridge pen; three removable shelves; supplied with two complete sets of instructions for installation, operation, maintenance and repair; may be manually operated in gravity mode in the event of power failure; used in field assemblies only

Material:

Steel, carbon and steel, corrosion resisting

Material:

Steel and stainless steel

Shelf Life:

N/a

Unit Of Measure:

Fiig:

T265-c
