Accessory Components And Quantity:

Electrodes, 8 ea; electrode handle, 2 ea; sterilizable electrode holder, 2 ea; soft carrying case, 1 ea; operation/maintenance manual, 2 ea.

Installation Design:

Portable

Output Wattage Rating:

12.0 watts

Err Default:

Err default

Product Name:

Diathermy apparatus ophthalmic: portable

Voltage In Volts:

120.0 or 230.0

Special Features:

Adjustable rf output range: 0.2 to 12 watts. For use in hemostasis, epilation, trichiasis, introcular tumors, destruction of skin, retinal detachment, and glaucoma procedures.

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-c
